## About F5™ Air Hose

The F5™ is a hybrid thermoplastic hose that provides durability and flexibility, is lightweight and has a low drag resistance. F5™ is non-marking, oil resistant and performs well under cold temperatures to -40°F (-40°C) and temperatures as high as 158°F (70°C). This 300 PSI hose is designed for a variety of pneumatic applications in industries such as construction and manufacturing.

Goodyear Rubber Products distributes the F5™ line for the US market. Standard assembled lengths are stocked for immediate shipment. Custom lengths and bulk quantities available on request.
